Balloon will specifically target increasing the share of women and rural borrowers that have previously been disproportionately excluded from financial services.

It is expected that DFC's \$5 million loan will support 250 SMEs with approximately 55% of those being women-owned or -led and 75% to rural clients.

Early Warning System Project Analysis

DFC loans to microfinance institutions for the expansion of lending to micro-small-and medium enterprises (“MSME’s”) are screened as a Financial Intermediary C (FI C) for environmental and social assessment. These downstream investments are expected to result in minimal adverse environmental and social impacts.
