Project Description

According to the Bank's website, DFC recently provided a \$65 million direct loan to support SFC's expansion and address the needs of SMEs in Africa in the post-COVID era. DFC will also provide post-investment technical assistance of \$500,000 to support approximately forty (40) of SFC's SME portfolio companies over five years to further develop the SMEs' expertise in the following areas: 1) environmental and social standards advisory support; 2) energy efficiency; 3) governance; 4) operational efficiency; 5) information systems. Specialized expertise will allow the SMEs to operate more efficiently and effectively, thereby reaching more marginalized and financially excluded end-customers, better serving their needs, and reducing the SMEs' negative environmental impacts.
