Project Description

According to the Bank's website, the project consists of a loan Portfolio Guaranty to promote access to finance for Diaspora linked and for green MSMEs in Bosnia and Herzegovina.

The MSME financing gap in Bosnia and Herzegovina (BiH) is estimated to be \$775 million, or 5% of GDP. The Bosnian diaspora, numbering 2 million people and making it one of the largest in the world, contributes significantly through remittances but faces challenges in securing formal bank financing in BiH due to a lack of local credit history and collateral.

The Project will address these challenges by enabling the Borrower to lend to MSMEs that are either owned or otherwise linked to the country's diaspora communities located outside of BiH.

Early Warning System Project Analysis

DFC loan portfolio guaranties to Financial Institutions for the expansion of their small and medium size enterprise loan portfolio (“SME”) are screened as a Financial Intermediary C (FI-C) for environmental and social assessment. These downstream investments are expected to result in minimal adverse environmental and social impacts. Therefore, all those downstream investments have been pre-screened as low risk and further review and consent is not required for these investments.
