|--------------------------------|--|
| Countries | Barbados |
| Financial Institutions | US International Development Finance Corporation (DFC) |
| Status | Approved |
| Bank Risk Rating | U |
| Borrower | Government of Barbados |
| Sectors | Law and Government |
| Investment Amount (USD) | \$ 237.50 million |
| Project Cost (USD) | \$ 337.50 million |

Project Description

The project involves the restructuring of Government of Barbados sovereign debt and redirecting of a portion of the loan payments to fund grants and to capitalize an endowment fund for long-term funding of conservation activities with the goals of conserving and enhancing marine and coastal ecosystems, strengthening the governance and management of such ecosystems, and creating resilient ecological and human communities (the “Project”). The Project results in \$22 million of debt savings, reducing the GoB’s debt burden by approximately 0.3%.

Investment Description

- US International Development Finance Corporation (DFC)
