DFC-RENPOWERMASTER

Renew Power Master Financing Facility II

Quick Facts

Countries	India
Financial Institutions	US International Development Finance Corporation (DFC)
Bank Risk Rating	U
Borrower	ReNew Power Limited
Sectors	Energy, Finance
Investment Type(s)	Guarantee, Loan
Investment Amount (USD)	$ 350.00 million
Project Cost (USD)	$ 466.00 million

Project Description

According to bank documents, the project will provide much needed long-term debt capital to enable ReNew to bid effectively and confidently for a major pipeline of solar energy projects under the National Solar Mission (“NSM”) in India, wind energy projects under national level tenders, and solar and wind energy projects with select state distribution companies. The facility provided by OPIC as part of the project will enable ReNew to avail itself of a streamlined and standardized source of debt capital which should lead to a more effective project bid process.
