## Quick Facts

<b>Countries</b>	Ecuador
<b>Specific Location</b>	Puerto Bolívar, Machala, El Oro Province
<b>Financial Institutions</b>	Inter-American Development Bank (IADB), International Finance Corporation (IFC), US International Development Finance Corporation (DFC)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	A
<b>Borrower</b>	Yilport Terminal Operations S.A.
<b>Sectors</b>	Infrastructure, Transport
<b>Investment Type(s)</b>	Loan
<b>Project Cost (USD)</b>	\$ 350.00 million

## Project Description

The Project involves expansion of the existing Puerto Bolívar Port Terminal, located in the City of Machala, El Oro province, Ecuador. The Project consists of:

- Demolition of a mooring dolphin with catwalk, the navy jetty, revetments, and various smaller structures;
- Construction of a new 450 m quay structure for Berth 6, connecting to the existing Berth 5. The quay will be made up of a reinforced concrete deck supported by deep foundation steel-cased piles and concrete pile caps;
- Dredging a total of 6,043,462.3 cubic meters (m<sup>3</sup>). Dredging works will take place in the area for construction of Berth 6 (71,192.40 m<sup>3</sup>) to increase existing port draft to a depth of 16.5 m, the access canal (4,131,787.30 m<sup>3</sup>), and the Maneuver zone (1,840,482.6 m<sup>3</sup>). Execution of dredging works will utilize both trailing suction hopper dredging and backhoe dredging. The proposed final disposal site for the dredged material is 13 nautical miles west of the Project site in the Jambelí Channel in the Gulf of Guayaquil.
- Substrate improvements onshore to improve the soil-bearing capacity through dynamic replacement, and offshore using cutter soil mixing technology.
- Onshore excavation of trenches for water piping (potable, sewage, and fire system) and installation of a fire water tank;
- Onshore yard expansion and construction including a new cold storage warehouse of 5,600 m<sup>3</sup>, paved yards for containers with twelve gantry crane blocks, and improvements to the access roads to the quays; and
- Electrical works and connection to the power grid.

The surrounding areas are primarily industrial and/or commercial areas. There are some, limited residential areas within the Project's area of influence. It is estimated that approximately 800 temporary workers will be hired for the construction phase.

---

### Investment Description

- Inter-American Development Bank (IADB)
- International Finance Corporation (IFC)
- US International Development Finance Corporation (DFC)

There is an A loan from the IDB Group up to USD 100 million

## Contact Information

### ACCESS TO INFORMATION

Unlike many other development finance institutions, DFC does not currently have an access to information policy.

Under the United States Freedom of Information Act (FOIA), DFC is obliged to respond to reasonably formulated requests for Agency records. However, DFC may apply exemptions from release to certain types of information and may charge fees in responding to requests. DFC has a designated FOIA officer who is trained in how to respond to requests and implement the law. You can learn more about filing a FOIA request at: <https://www.dfc.gov/foia>

### ACCOUNTABILITY MECHANISM OF THE UNITED STATES INTERNATIONAL DEVELOPMENT FINANCE CORPORATION (DFC)

The Office of Accountability is an independent office that addresses complaints about environmental or social issues related to DFC-supported projects. The office provides communities an opportunity to have concerns independently reviewed and addressed. If you submit a complaint to the Office of Accountability, it may assist you by either seeking to address your problems by facilitating a problem solving dialogue between you and those implementing the project and/or investigating whether the DFC complied with its policies to prevent environmental, social, human rights, and labor harms.

You can find more information about the Office of Accountability at: <https://www.dfc.gov/who-we-are/office-accountability>
