### Project Description

According to EBRD website, the project aims to achieve the following:

- To identify the off-shore wind energy potential in Turkey, conduct a market assessment regarding off-shore wind technology and review challenges, risks and opportunities in construction and operation phases of off-shore wind farms;
- To prepare a cost breakdown and investment analysis of potential off-shore wind farms in Turkey;
- To improve the existing renewable energy potential atlases of Turkey by using main meteorological inputs and base maps to be provided. The atlases to be developed will include: Wind Energy Potential Atlas (REPA) including both on-shore and off-shore potential in Turkey and; Wave Energy Potential Atlas (DEPA) in Turkey's seas;
- To define setbacks for wind energy power plants in Turkey taking best practices in the world into account.

### ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form, [http://www.ebrd.com/eform/pcm/complaint\\_form?language=en](http://www.ebrd.com/eform/pcm/complaint_form?language=en). You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>.
