Support for Competitive Procurement of Renewables in Serbia

Project Description

In the transition to a competitive procurement scheme for renewable energy, the Serbian Ministry of Mining and Energy (the main beneficiary) has requested the assistance of the European Bank for Reconstruction and Development ("EBRD" or "the Bank") in further developing the necessary framework for, and for the implementation of, competitive RE auctions. The request of the Serbian authorities builds on the Bank's previous assistance over the past years in their strategy to support RE. This assistance has included technical cooperation aimed at the development of the Power Purchasing Agreement (PPA) in 2016, as well as policy dialogue focused on the enhancement of its bankability.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at pcm@ebrd.com or you can submit a complaint online using an online form, http://www.ebrd.com/eform/pcm/complaint_form?language=en. You can learn more about the PCM and how to file a complaint at http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html.
