Project Description

According to the bank website, the overall objective of this assignment is to support green and inclusive recovery in Ukraine. This will be done by providing the Government of Ukraine with relevant analysis on how a green economy transition in Ukraine can be accelerated while also managing the social and economic effects of the transition, focusing on the regions, industries, communities and workers who will face the greatest challenges. The key outcomes are:

- Supporting sustainable energy policy, focusing on decreasing the dependence on coal in line with national climate targets for accelerated decarbonisation, improving energy security and efficiency of supply through renewable sources, and integrating them into the regional energy market.

- Facilitating the creation of new economic opportunities for workers and regions dependent on coal assets and associated supply chains, including through identifying and channelling financial support for identified investment types and using appropriate financing instruments and sources.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at: http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html
