Project Description

PROJECT DESCRIPTION

The EBRD is considering providing a EUR60.7 million facility to Croatian Motorways ("HAC"), the state-owned company in charge of the motorway network in Croatia, to finance the construction of 12.53 km of motorway sections along Corridor Vc in Croatia connecting the northern and southern ends of the corridor at the border with Bosnia and Herzegovina (BiH). The loan will be guaranteed by the Republic of Croatia. The Project will be co-financed by EIB.

TRANSITION IMPACT

The Project will support the development of Corridor Vc as an integrated regional corridor by ensuring the physical continuity of the corridor on Croatian territory and connecting it to the Croatian motorway network. It will also facilitate improvements in the safety and efficiency of border-crossings on this corridor with Bosnia and Herzegovina.

THE CLIENT

The client is HAC, which is responsible for developing and maintaining the motorway network and other tolled activities in Croatia. HAC was established by Government decree on 9 April 2001 as a state-owned limited liability company, following the restructuring of the Croatian Road Authority. HAC reports to the Ministry of Sea, Transport and Infrastructure.

EBRD FINANCE

The Project involves the provision of a sovereign guaranteed loan by the EBRD to HAC of up to EUR60.7 million.

PROJECT COST
