Gas pipelines under ICA's management include the Russia-bound Central Asia - Centre pipeline, Bukhara - Ural, Orenburg-Novopskov, and Bukhara-Tashkent-Bishkek-Almaty trunk lines, and other assets. ICA earns most of its revenues by transporting natural gas through these pipelines. In addition, the company operates three underground gas storage facilities, provides technical and maintenance services to third parties. ICA employs around 7,000 staff in Kazakhstan.
