The EBRD has approved EUR 50 million (or its USD or TRY equivalent) financing to Turkish lender Vakifbank under the Refugee Crisis Response Facility to finance MSMEs operating in the primary and secondary target regions including those MSMEs owned and/or led by people displaced by the conflict in Syria. The project can be funded through a range of financing instruments, including but not limited to senior notes issued under the company's existing Diversified Payment Rights programme or residential mortgage covered bonds. Vakifbank is the first participating financial institution to receive approval for financing under the Refugee Crisis Response Facility.

The Refugee Crisis Response Facility is supported by inter-linked technical cooperation and first loss risk cover to participating financial institutions to increase local availability of MSME finance in impacted regions, including for those owned and/or led by refugees and for those employing refugees. The EBRD's Board of Directors approved EUR 5 million of first loss risk cover under the Shareholder Special Fund Community Resilience sub-account.
