Status	Approved
Bank Risk Rating	A
Voting Date	2018-09-05
Borrower	MINSK VODOKANAL
Sectors	Climate and Environment, Infrastructure, Technical Cooperation, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	$ 97.80 million
Project Cost (USD)	$ 195.62 million

Project Description

The Project aims to rehabilitate the existing wastewater treatment plant which helps to enhance wastewater treatment efficiency and its performance; to construct a effective, modern sludge management and disposal facility, including energy and heat recovery technology from sludge biogas utilisation in the City.

The Project is planned to provide environmental benefits and improve social conditions in the area of influence. Moreover, it will facilitate the advancement of tariff reform and improvement of the Company's corporate governance and capacity as well as introduce better contractual arrangements between the Company and the City. The components include:

(i) reconstruction of the Minsk wastewater treatment plant to eliminate odour, optimise use of the existing facilities and enhance wastewater treatment efficiency of the plant in line with national and EU requirements; and

(ii) construction of sludge treatment facilities (including digestion, dewatering, drying and incineration) in line with EU best available techniques on the premises of the wastewater facilities.

Investment Description

- European Bank for Reconstruction and Development (EBRD)

Provision of a sovereign loan of up to EUR 84 million to Minsk Vodokanal (UE "Minskvodokanal" or "Company"), a municipal enterprise wholly owned by the City of Minsk (the "City"), to finance rehabilitation and reconstruction of the Minsk wastewater facilities. The proposed EBRD loan will be co-financed in equal amount by the European Investment Bank (EIB).

Public Information Policy (PIP)

The PIP sets out how the EBRD discloses information and consults with its stakeholders so as to promote better awareness and understanding of its strategies, policies and operations. Please visit the Public Information Policy page below to find out how to request a Public Sector Board Report.
Text of the PIP

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at pcm@ebrd.com or you can submit a complaint online using an online form, http://www.ebrd.com/eform/pcm/complaint_form?language=en. You can learn more about the PCM and how to file a complaint at http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html.
