It aims to represent an additional local currency source for Priorbank and enable them to expand and facilitate local currency lending to private micro, small and medium-sized enterprises in Belarus, while helping MSMEs avoid taking on currency exchange risks. The Project will increase local currency intermediation in Belarus thus supporting the development of the domestic money and capital markets in the country and fostering a more stable financial environment.

Further, it will support the competitiveness of Priorbank by facilitating the development of its MSME loan portfolio with a focus on new and regional borrowers.
