## Project Description

According to the Bank's website, this project finances: (i) the development, operation and financing of a wind power plant extension which will increase the total capacity of the existing plant; and (ii) refinancing of an outstanding leasing facility provided for the original wind farm.

The project has been assigned an environmental and social risk rating of A because it is located within the Via Pontica bird migration flyway, a major bird migratory flyway in Turkey. The wind farm lies within the boundaries of the Istranca Mountains Key Biodiversity Area.

### ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form, [http://www.ebrd.com/eform/pcm/complaint\\_form?language=en](http://www.ebrd.com/eform/pcm/complaint_form?language=en). You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>.
