## Project Description

According to EBRD website, the project aims to support the Issuer to access medium- to long-term funding by using a covered bond instrument collateralised by a pool of residential mortgage loans. It will (i) help VUB to set the basis for the repetitive issuances of larger size covered bonds in the future, (ii) support further increase in diversification of the funding sources via stable financing instruments, (iii) address asset-liability maturity mismatches, and (iv) contribute to building up a critical mass of outstanding covered bonds in Slovakia by supporting the largest covered bond issuance in the country, and potentially attracting a wider investor base.

## ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form, [http://www.ebrd.com/eform/pcm/complaint\\_form?language=en](http://www.ebrd.com/eform/pcm/complaint_form?language=en). You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>.
