Project Description

According to bank documents, the project involves development, construction and operation of a portfolio of solar photovoltaic (PV) plants in Jordan totalling 48MW, which will supply 100% of the electricity generated to five private consumers: Umniah telecom, Carrefour and Safeway supermarkets, Taj Mall retail and Classic Fashion manufacturer.

The project is being developed under the Wheeling Regulations in Jordan, which allow consumers to establish and lease or own renewable energy plants and, if necessary, connect them to the transmission or distribution system at remote locations for the purpose of generating power for their own consumption.

The project is developed under the EBRD SEMED Private Renewable Energy Framework (SPREF), a USD 250 million framework designed to finance private developers of renewable energy providing electricity to private consumers in SEMED countries.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at pcm@ebrd.com or you can submit a complaint online using an online form, http://www.ebrd.com/eform/pcm/complaint_form?language=en. You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>
