Project Description

According to the bank website, the EBRD and Intrum Holding AB jointly invested in an unsecured non-performing exposure (NPE) portfolio, originated by Piraeus Bank, one of the leading banking groups in Greece. The portfolio consists of approximately 53,000 loans with total legal claims of about EUR1.7 billion and a gross book value of EUR0.7 billion. The portfolio was acquired through a special purpose company, Iris Hellas Investments Designated Activity Company (DAC), while management of the portfolio was assigned to Intrum Hellas (the "Servicer"). The project will further support the stability of the Greek banking sector, helping to reduce the current number of total exposures by Greek banks, in line with the reduction targets agreed with the supervisory authorities.
