Project Description

According to bank provided information, the investment involves the provision of a senior unsecured loan to Banque Misr ("BM") for US\$ 100 million, under the Bank's Resilience Framework ("RF") developed to address the impact of the COVID-19 pandemic on regional economies. The proceeds of the proposed loan will be on-lent to local private small and medium-sized enterprises ("SMEs"), and to corporates, supporting them in bridging liquidity needs that may arise as a result of the pandemic.

The financing will help BM in providing funding to local SMEs and corporates experiencing either a decrease in their activity, turnover, and/or profitability, in turn leading to payment delays and potential defaults, or growing capacity needs arising from a significant fluctuation in demand in particular sectors.
