Project Description

According to the bank website, the project consists of a provision of EUR 6.5 million debt financing to permanently resolve inadequate pressure in the Brcko District water service system and restore water quality in the main centralised water network This involves the construction of an approximately 14 km long pipeline, a new pumping station and clean water storage reservoir at "Potocari" and targeted reconstruction of between 2-3km of the existing water supply network to reduce water losses (from 53.1 to around 41.6 per cent) whilst improving system integrity ("the Project").

To significantly improve the reliability and physical resilience of the existing water supply system. In addition, construction of the new Main Transmission Pipeline ("MTP") will also enable the connection to the network of settlements in the vicinity of the new MTP that are currently under-served, increasing the supply area (achieving full population coverage) and increasing the revenues stream of Company through these new connections.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at: http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html
