According to the bank website, the project consists of a sovereign loan of up to EUR 25 million to the Republic of Moldova. The proposed investment will finance priority investments to improve solid waste management services across the country, establish integrated solid waste management systems in the participating Waste Management Regions in line with Moldova's National Waste Management Strategy (the "NWMS") and the country's undertakings under the Association Agreement with the EU. The Project is an important step towards sustainable solid waste management services in Moldova.
