Project Description

According to the bank website, the project consists in the provision of a senior loan of EUR 50 million to Cepal Hellas Financial Services Single Member SA (Cepal), together with Alpha Bank SA (total amount of EUR 105 million), under the NPL Resolution Framework. The Project facilitates the reduction of NPLs in Greece, which would help in cleaning up the banks' balance sheets and freeing up capacity for new lending, thus strengthening financial resilience in the country. The Project will support the Framework TI qualities by enhancing both the market's (i) resilience through the enhancement of one of the leading independent (non-bank-owned) NPL servicers in Greece and (ii) competitiveness by enabling further business expansion of an established NPL servicer, thereby fostering competition and ultimately improving the servicing quality and capacity of the market.
