Project Description

According to the Bank’s website, the project aims to improve the environmental and safety standards by making the new sanitary landfill operational; increasing the capacity to recover recyclable materials; reducing waste quantities going to the new landfill, and thus extending its lifetime, reducing uncontrolled leachate, and landfill gas generation. The acquisition of the solid waste management equipment will enable Adjara Waste Management Company to start new landfill operations, and consequently the disposal of waste at the current non-EU compliant dumpsites will be stopped. Moreover, the Project will finance the construction of a waste treatment plant.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at: http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html
