Project Description

According to the website, the EBRD invested EUR 35 million in an inaugural, benchmark EUR 500 million senior preferred ("SP") bond issued by Alpha Bank S.A. The SP bonds have a maturity of 6.5 years, with a call option after 5.5 years, and are listed on the Luxembourg Stock Exchange. The Project boosts the resilience of a systemic bank in Greece in the context of ongoing restructuring and MREL requirements phasing in at EU level and supports the bank in implementing its strategic transformation plan and establishing its regular access to capital markets with unsecured instruments. Furthermore, the EBRD promotes resource efficiency in the country by requiring Alpha Bank to allocate funds in the amount of 1.5 times of EBRD's subscription to finance green investments in renewable energy and energy efficiency.
