Project Description

The project involves an EUR 50 million (10% participation) investment in a senior preferred bond issued by Eurobank S.A. ('ERB') as a part of a public benchmark issuance of EUR 500 million listed on the Luxembourg Stock Exchange. On 7 September 2021, the EBRD invested another EUR 27 million (5.4% participation) in the second senior preferred bond issuance of ERB under the same programme.

On 29 November 2022, under the same programme, the EBRD invested EUR 10 million (3.3% of the issuance amount) in subordinated ('Tier 2') bonds issued by Eurobank Ergasias Services and Holdings S.A. ('ERB Group') as part of a public issuance of EUR 300 million to be listed on the Luxembourg Stock Exchange. The bonds have a 10 year maturity with a call option on the fifth year (10NC5 structure).

The project supports the resilience and regulatory compliance of a systemically important institution in the country and contributes to the capital market development of Greece. The project also aims to support strong green targets with 150% of the EBRD's investment to be allocated to finance green projects in line with EBRD's Green Economy Transition ("GET") eligibility criteria.
