Project Description

According to the bank website, the project involves an equity investment in MANTA, a provider of data lineage software with operations and development centre in Czech Republic.

Investment Description

- European Bank for Reconstruction and Development (EBRD)

Investment amounts not provided by the EBRD.

Private Actors Description

As stated by the EBRD, founded in 2016, MANTA provides data lineage software for enterprises with complex data environments. MANTA's automated data lineage platform provides insight into data environments by building a powerful map of all data flows, sources, transformations and dependencies to help improve data governance, streamline migration projects, enable observability and accelerate incident resolution.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at: http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html
