## Project Description

According to the Bank's website, the project consists of the provision of a EUR50 million long-term senior unsecured loan in three tranches to AIK Bank Serbia (AIK) for on-lending to small and medium-sized enterprises (SMEs) in Serbia. The loan is extended under the EBRD Financial Intermediaries Framework (FIF).

The loan is intended to facilitate the expansion of lending to private businesses through working capital lines and investment loans, including to enterprises operating in less economically developed regions of the country. Furthermore, the transaction supports AIK's growth strategy and provides a source of medium term funding.
