## Project Description

According to the Bank's website, the project consists of the provision of a senior unsecured loan to Addiko Bank Serbia ("ABSe") of EUR 40 million under the Financial Intermediaries Framework ("FIF") for on-lending to small and medium enterprises (SMEs) in Serbia. The loan is also an important resource to SMEs in the context of the ongoing crisis and a post Covid-19 crisis response, allowing uninterrupted access to mid-term financing.

The proposed project will improve access to finance for SMEs, which are the main source of employment in the private sector and a major contributor to the economy in Serbia. The bank is successfully implementing a SME-focused strategy and well-positioned to provide much needed financing to smaller businesses in the country via its regional branch network. The focus will also be on lending in the regions outside the capital and attracting new SME clients.
