### Project Description

According to the bank website, this project involves the provision of EUR 25.6 million credit protection guarantee to Raiffeisenbank Austria d.d. ("RBA"), a commercial bank incorporated in Croatia, by participating in a synthetic balance sheet securitisation of c. EUR 367 million performing SME and corporate loans' portfolio, originated by RBA. The structure uses a bilateral unfunded financial guarantee, passing on to EBRD the credit risk of the mezzanine tranche of the securitised portfolio.

The project boosts the resilience of a systemic bank in Croatia, by allowing RBA to achieve a risk-weighted assets' ("RWA") relief and optimise its regulatory capital requirements, while the RWA relief achieved will be redeployed to new on-lending to the real economy. As such, RBA will fully utilise this capacity to finance new eligible SME and corporate loans, out of which RBA will allocate funds in the amount of 120% of the Bank's guarantee for financing new GET eligibility projects.
