Project Description

According to the EBRD, the project consists in the provision of a senior unsecured loan of USD 20 mln (or the equivalent in local currency) to be provided to TBC Bank to support investment financing for on-lending to women-led MSMEs in Georgia under the Women in Business Programme in the Eastern Partnership countries.

The project will address the gender related inclusion gap for access to finance in Georgia, as lending to women entrepreneurs might be hindered by the absence or shortage of collateral. The First Loss Risk Cover available under the WiB loan, will enable the bank to enhance borrowing capacity of their target clientele. Moreover, WiB will continue promoting women entrepreneurship and women participation in business by building or improving efficiency of respective entities through expertise and advisory services provided under the framework.
