The Project will include a sub-limit under the SME Competitiveness Programme in the European Union's ("EU") Eastern Partnership ("EaP SMEC" sub-limit, assigned with a separate EBRD project number 54838) of up to EUR 8 million or 20% of the Covered Portfolio to finance long term capital investments of micro, small and medium sized enterprises to upgrade their technologies and equipment to EU standards, including investments in sustainable and green technologies (70% of EaP SMEC sub-limit), thereby enhancing businesses' competitiveness. Eligible sub-borrowers will also receive EU funded technical assistance and grant support in the form of investment incentives upon the completion of their investment projects.

The Facility will be used to support lending to Ukrainian private companies operating in the primary and secondary agriculture and other critical industries (inter alia food processing, retail, logistics), with the ultimate goal of preserving livelihoods in Ukraine.
