Early Warning System Project Analysis

Categorised B (ESP 2019) with Low-Medium risk. Environmental & Social (E&S) issues associated with the equity investment for the acquisition of TowerCo by the Bank as part of a consortium of investors, are limited and can be addressed through standard mitigation measures. Environmental and social due diligence (ESDD) of TowerCo is led by the lead investor and conducted through the services of an external environmental and social consultant, the scope of which includes requirements from EBRD's Environmental and Social Policies.
