## Project Description

According to the Bank's website, the EBRD has provided USD 52.8 million financing to Yapi ve Kredi Bankasi A.S. ("YKB") under YKB's existing Diversified Payment Rights ("DPR") programme. The proceeds of the financing are USD 52.8 million under the Green Economy Financing Facility ("GEFF"), of which USD 2.8m co-financed by the Clean Technology Fund ("The Project").

The Project will enable YKB to access long-term funding and diversify its funding sources.

Under GEFF, The Project aims to support green economy investments including among others energy efficiency, renewable energy and climate resilience measures. Funds may also be on-lent to vendors and producers of eligible material and equipment covered by the Green Technology Selector for Turkiye. Cooperation will also be sought with YKB and sub-borrowers on the mainstreaming of corporate climate governance ("CCG") and gender-responsive on-lending and better integration of climate change and gender equality considerations into YKB's lending strategies and practices. The financing will be supported by Technical Cooperation ("TC") as envisaged under the GEFF.
