Project Description

As stated by the EBRD, the project consists of the provision of a EUR6 million senior secured loan to Mirzo Bobur LLC, to be disbursed in two tranches, for the expansion of its food production facility and coffee shop chain.

The project will finance the construction of a new food production facility that will enable the company to double its current production capacity, along with the purchase of state of the art bakery, pastry, and other food processing equipment. These investments are expected to enhance the borrower's competitive position in the coffee shop market and support a sustained improvement in profitability.

The Japan-EBRD Cooperation Fund supported the project by partially covering the legal due diligence costs, while EBRD Shareholder Special Fund contributed to the borrower's first time IFRS adoption and corporate governance implementation activities. Across all components, the borrower provided a 25 per cent cost contribution. In addition, the project is expected to benefit from a FINTECC grant of up to EUR70,000 to support the borrower's planned investments in energy efficient technologies
