According to the EBRD, the project consists of a Portfolio Risk Sharing in the form of an unfunded portfolio guarantee of up to EUR 15.0 million provided by the Bank in favour of OTP Bank Moldova ("OTPM"). The guarantee will cover up to 50% of the credit risk on a pro rata basis on the newly-generated micro, small and medium-sized enterprise loan portfolio of up to EUR 30.0 million originated by OTPM.

This project is the first pilot implementation of the Portfolio Risk Sharing product by the EBRD in Moldova. The product aims to release a bank's risk-taking capacity to boost on-lending to MSMEs, addressing an MSME financing gap in the market.

The project is indirectly supported by SSF funds, which are being used for the overall PRS product development, in particular the legal support by an outside counsel and previous support in the design of the product. The project is also supported by tailored capacity-building for MSMEs, especially for agri MSMEs to strengthen their agribusiness practices and capabilities in the export market via the Advice for Small Businesses team.
