## Project Description

According to the EBRD, the project consists of the provision of a senior loan of up to US\$ 4 million to FMFB, of which up to US\$ 3 million (in TJS equivalent) to be provided by the EBRD and up to US\$ 1 million by the GCF under the GCF-Green Economy Financing Facility Regional Framework (GCF GEFF II Tajikistan Programme).

The proposed operation complies with the GCF GEFF Regional Framework criteria. The proposed transaction under the GCF GEFF Regional Framework will be a subsequent transaction with FMFB following a previous transaction under TajCREFF. Proceeds of the loan will be allocated to finance climate change mitigation and adaptation technologies. The transaction will support further expansion of FMFB's product offerings with green lending products, in a gender responsive way.

The project contributes to the objectives of the GCF-GEFF Regional Framework, and in particular of the GCF GEFF II Tajikistan Programme (GEFF Tajikistan II), supporting the Green TI quality in line with the GET TI rating methodology, with 100 per cent of the use of proceeds allocated to GET activities. The project will contribute to Programme's objective of providing support to building a green economy in Tajikistan by facilitating the accelerated market penetration of climate technologies, particularly focusing on promotion of climate resilience and resource efficiency technologies applicable to the agricultural sector and rural areas.

A green policy engagement component is included under the GEFF Tajikistan II Programme level. The key activities and deliverables of the policy dialogue is institutional reform in the financial sector in Tajikistan, to be achieved by supporting the National Bank of Tajikistan in adoption of a regulation aimed at addressing climate risk, primarily through voluntary disclosures. The regulation is expected to follow international best practice, principally following recommendations from the Network of Central Banks and Supervisors for Greening the Financial System, and taking into consideration the latest EBRD Paris Alignment approach for Indirect Finance. This policy topic is identified as a priority in the latest Country Strategy for Tajikistan 2020-2025 (BDS/TA/19-01/F).

Within two years from signing, FMFB will aim to submit to the EBRD a transition plan, which will set out time-bound targets, actions and milestones through which FMFB will improve its business practices in relation to climate change, progressively leading to the alignment of its financing activities with the goals of the Paris Agreement.
