### Project Description

According to the Bank's website, the project consists of an investment of up to RSD 2.3 bn (equivalent to EUR19.6 mn) in inaugural minimum requirement for own funds and eligible liabilities (MREL)-eligible local currency bonds issued by Raiffeisen Bank ad Beograd (RBB) to be listed on the Belgrade Stock Exchange. The bonds will be contractually eligible against RBB's MREL for bail-in-able funding and have a maturity of 4 years with a non-callable period of 3 years.

The project supports resilience of a local bank by helping RBB build diversified funding base for the minimum requirement for own funds and eligible liabilities and reinforces local capital market development and dinarisation in Serbia by Bank's participation in bonds issued by RBB in local currency. The project contributes to the expansion of lending to private businesses through working capital lines and investment loans to SMEs, including enterprises operating in economically less developed regions of the country. Furthermore, the transaction supports RBB's growth strategy and provides a source of medium term local currency funding. The bank will aim to allocate up to EUR 6 mn of the proceeds to Green Economy Transition (GET) eligible projects.

### ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form at:
