Project Description

According to the EBRD, the project consists of the provision of an Equity Bridge Loan to fund Scatec's equity commitment in the construction and operation of a 50 MW solar PV plant located in the area of Sidi Bouzid, in Tunisia.

The Project will promote private sector participation in the Tunisian power sector. By adding 50 MW of green generation capacity to the Tunisian power system - currently dominated by gas-fired power plants (94.7% of installed capacity), the Project will reduce reliance on thermal power generation and increase the share of renewable energy in the energy mix in line with the nationally declared targets.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at:
