## Project Description

As stated by the EBRD, the project consists of a senior unsecured loan of up to EUR 25 million or its USD equivalent, with up to 3-year final maturity, to finance digital transformation investments of the Turkish manufacturing SMEs under the Digital Transformation Financing Facility ("DTFF" or "Programme"), a blended programme established under the Financial Intermediaries Framework.

The DTFF Programme tackles significant obstacles faced by SMEs preventing most of them from growing and becoming more competitive, such as lack of capacity to handle, sort and prioritize, adopt best industry practices, relevant industry standards and pursue innovation in various strategic and operation areas of their activities. DTFF aims to spread the use of digital technologies among Turkish SMEs through promoting and financing digital transformation to significantly boost their competitiveness.

The DTFF Programme will be implemented in close cooperation with KOSGEB, which will engage Digital Transformation (DT) Consultants to conduct digital maturity assessments and develop DT actions plans (DT Roadmaps) for eligible SMEs. These action plans will aim to improve SMEs' productivity and efficiency through implementation of new and improved technologies. KOSGEB is also committed to provide interest rate rebates on sub-loans disbursed under the DTFF to incentivize SMEs participating in the Programme. The rebates will be administered directly by KOSGEB to SMEs, without involvement of partner banks and the EBRD.

The operation is also aligned with the second priority of Türkiye Country Strategy 2019-2024, approved by the Board on 24 July 2019: "Foster Türkiye's Knowledge Economy and Higher Value-Added Activities, and Promote Good Governance". It is also aligned to the Small Business Initiative (BDS15-050). Finally, the project is consistent with the Bank's Strategy for the Promotion of Gender Equality (BDS21-133 (Rev 1)) and the Equality of Opportunity Strategy ((2021-2025) BDS21-134 (Rev 1)) as it fosters people access to digital technologies and aims to address the disproportionate barriers faced by women entrepreneurs.

DTFF Türkiye Programme is supported by technical co-operation to enhance digital awareness among Turkish SMEs, including women-led SMEs, as well as KOSGEB's capacity to monitor and manage the DTFF qualitative and quantitative impact, and will be funded by the EBRD-Türkiye Cooperation Fund or the EBRD Shareholder Special Fund.

## ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form at:
