Investment Type(s)	Loan
Investment Amount (USD)	\$ 53.96 million
Loan Amount (USD)	\$ 53.96 million
Project Cost (USD)	\$ 359.35 million

Project Description

As stated by the EBRD, the project consists of an investment in the amount of EUR 50m to a newly established SPV, Podravka Agri d.o.o., majority owned by Podravka Inc. (the "Sponsor"), for the purpose of the acquisition of Fortenova Group's Agriculture Division, a leading Croatian vertically integrated farming enterprise (the "Target").

The investment will support the Sponsor in its expansion efforts and the implementation of efficiency and profitability improvements at the Target level.

The Target's key activities [...] include livestock farming, meat and dairy production, crop farming and associated ancillary activities.

The due diligence did reveal several E&S issues which will be addressed through actions within the environmental and social action plan (ESAP). Key issues that arose include community complaints in relation to selected pig farms, and the need for better maintenance for a number of facilities to ensure continuation of good operation and adequate protection of health and safety. Other general issues include, for example, the need to continue application of certified management systems and the need to identify affected stakeholders and ensure appropriate communication and information disclosure.

An ESAP to address these issues has been developed and agreed with the Company. Podravka will be required to report on the implementation of the ESAP and on E&S in general throughout the lifetime of the project, via a written annual E&S reporting and additional actions as required by the Bank.

As stated on [the company's website](#), following successful conclusion of negotiations, Podravka and [Fortenova group](#) signed a sale and purchase agreement [...] for the purchase of Fortenova group's agricultural segment, which includes Belje, PIK Vinkovci, Vupik, Energija Gradec, Belje, Agro-Vet and Felix.

The transaction is valued at 333 million euros and Podravka will finance this acquisition through loans from commercial banks, with the European Bank for Reconstruction and Development (EBRD) expected to be a partner in the transaction.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at:

http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>
