Project Description

According to the EBRD, the project consists of the provision of a sovereign loan of up to US\$ 50 million to the Republic of Uzbekistan for the acquisition of electric buses (e-buses) with charging units and construction of e-bus depot infrastructure for the city of Nukus. The project will serve as a 'trigger' investment under the EBRD Green Cities, formally initiating the participation of the city of Nukus in the programme. Through the project, the city will commit to develop a Green City Action Plan (GCAP).

The project will support initial deployment of e-buses and expansion of public electric mobility (e-mobility) in Nukus to improve public transportation services. The shift to e-mobility will significantly reduce greenhouse gas emissions, tail pipe air pollutant emissions and noise pollution. It also encourages a modal shift from private to public transportation with more safe and reliable public bus services.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at:

http://www.ebrd.com/eform/pcm/complaint_form?language=en

You can learn more about the PCM and how to file a complaint at: <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>
