The proposed uncommitted TFP limit will be instrumental in supporting this growth by unlocking additional commercial capacity, expanding the correspondent banking network, and promoting intra-regional trade. Additionally, the technical co-operation aspect of the project will enhance TB's expertise and know-how, diversify its product offerings, and foster the growth of its trade finance business.

Within the scope of the TFP facility, TB will be offered the regular TC projects within the TFP TC Framework, including but not limited to advisory services, places on the Trade Finance e-Learning Programme, and interactive workshops on different trade finance topics.
