Project Description

According to the EBRD, the project consists of the provision of a senior synthetic Kyrgyz som loan or US dollar loan of up to US\$ 15 million to Demir Kyrgyz International Bank (DKIB) under the Kyrgyz Republic GEFF (KyrSEFF III). The proceeds will be on-lent to sub-borrowers for energy efficiency, renewable energy, circular economy, and climate resilience investments. The project will further strengthen SME competitiveness, improve their climate resilience and promote the development of the country's financial sector in particular through local currency lending.

The transaction will contribute towards building a more competitive financial sector through developing the internal capacity of DKIB for financing energy and water efficiency projects. This will be achieved through a technical assistance aimed at providing implementation support to DKIB and their customers, verification of the outcomes, and investment incentives to end borrowers. Sub-projects are selected according to technical and financial eligibility criteria set forth in the policy statement for KyrSEFF III. 100 per cent of the proceeds will be used for Green Economy Transition investments.

The project will contribute towards building a green economy by facilitating the expansion of energy/water efficiency lending to residential and commercial sectors in the Kyrgyz Republic and positive demonstration effects of energy/water efficiency projects.

Early Warning System Project Analysis

Investment Description

- European Bank for Reconstruction and Development (EBRD)

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.

- [DEMIR KYRGYZ INTERNATIONAL BANK](#) (Financial Intermediary)

Private Actors Description

As stated by the EBRD, DKIB is a longstanding client of the EBRD, which during the period from 1997 until late 2018 was bank's shareholder. To date the EBRD has provided to DIKB a wide range of various debt products, including SME, energy efficiency and mortgage loans, as well as trade finance financing, with the total amount of provided funding exceeded US\$ 50m. The EBRD is the major wholesale lender to the bank as DKIB mostly relies on deposit funding and only borrows wholesale funds to participate selectively in expertise generating and high profile IFI-led projects in the country.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: pcm@ebrd.com or you can submit a complaint online using an online form at:
