GB Logistics ("GBL" or the "Company") is the logistics arm of GB Corp (the "Guarantor" or the "Group") and operates as an Egyptian Integrated Service Provider ("IPS") offering end to end logistics and supply chain solutions to corporate clients including warehousing (bonded and nonbonded), transportation, freight forwarding, customs clearance, contract logistics, and supply chain management services in Egypt and internationally.

Originally established to provide integrated logistics services across the GB Corp Group and support vertical integration of its automotive and industrial businesses, GBL has progressively expanded its operations to serve a growing base of third-party customers, positioning itself as a standalone logistics provider.

GBL provides comprehensive, single-platform supply chain management, letting clients outsource critical logistics functions. Their integrated offerings eliminate the need for multiple vendors by combining storage, transportation, customs clearance, and freight forwarding into one seamless workflow.

GBL is 99.98% owned by RG Investment S.A.E, which, in turn, is 99.99% owned by GB Corp. GBL's operations are anchored by a large logistics hub in Sadat City providing bonded and non-bonded warehousing with onsite customs presence, supported by integrated warehouse and yard management systems.
