## Project Description

According to the EBRD, the project involves a long-term senior loan of up to EUR 50 million to Volyn West Wind-2 LLC and Volyn West Wind-3 LLC, special purpose vehicles incorporated in Ukraine. The loan will be a part of a senior secured debt financing to be provided by a consortium of development financial institutions including the EBRD, IFC, BSTDB, to finance the construction and operation of a 189 MW wind power plant in Ukraine. The Project will benefit from a guarantee and technical assistance funds under the EU's Ukraine Investment Framework Hi-Bar programme.

The Project will strengthen Ukraine's energy resilience by constructing a 189 MW wind power plant. With significant power generation capacity of Ukraine destroyed because of the war, this investment is crucial to address the severe energy shortfall, support Ukraine's decarbonisation goals, and boost the private sector's role in further development of the renewable energy sector in the country.

## ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent.

You can contact the PCM at: [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form at:

[http://www.ebrd.com/eform/pcm/complaint\\_form?language=en](http://www.ebrd.com/eform/pcm/complaint_form?language=en)

You can learn more about the PCM and how to file a complaint at: <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>
