## Project Description

According to bank provided information, the investment involves the provision of USD 60 million working capital facility to be used for sourcing and processing of raw cashew nuts in Cote d'Ivoire.

The proposed financing will enable the Dorado Group's subsidiaries in Cote d'Ivoire to increase sourcing of cashew nuts, for further processing and export to global markets.

The Project includes exposure to the Company's existing assets, including a large cashew processing facility and warehouses in Cote d'Ivoire, and E&S risk issues inherent within the agricultural sourcing and processing sectors, which are particularly accentuated in relation to the local cashew farming and production activities taking place in a context of environmental, social and economic vulnerability, as well as with the seasonal activity peaks at the company's factories and warehouses.

TC support for this operation has been provided by the Bank's Shareholder Special Fund and the Corporate Climate Governance Facility.
