As stated by the EBRD, the project consists of a capped unfunded portfolio risk-sharing in the amount of up to EUR 38.5 million, to be provided by the EBRD as an InvestEU implementing partner to Erste & Steiermarkische Bank d.d. (EBC), as an eligible partner financial intermediary in Croatia under the EBRD's InvestEU Green Capped Portfolio Guarantee Framework. The guarantee will cover EBC's newly generated portfolio of loans financing eligible sustainable projects across industry sectors in Croatia. The Project benefits from partial first loss risk cover from the European Union under the InvestEU Fund.

The Project aims to support the EBRD's sustainable agenda in Croatia and the national green economy priorities. It will bridge the funding gap for sustainable energy investments in the country, support the resilience of a systemic bank and expand its sustainable lending capacity.

The EBRD categorized the investment as "Green" because it aims to address the issue of high energy intensity of the Croatia economy through increased sustainable energy investments across industry sectors, leading to energy savings and reduction of carbon emissions. EBC will allocate 125% of the EBRD-covered portion of the portfolio to eligible sustainable projects, thus enhancing the Project's contribution to green economy transition.
