Project Description

According to the Bank's website, the project consists of the provision of a senior unsecured loan to Addiko Bank Serbia ("ABS") of EUR25 million under the Financial Intermediaries Framework ("FIF") for on-lending to small and medium enterprises (SMEs) in Serbia. The loan will be the fourth transaction with ABS in support of SME lending under FIF.

The proposed project will improve access to finance for SMEs, which are the main source of employment in the private sector and a major contributor to the economy in Serbia. The bank is successfully implementing a SME-focused strategy and well-positioned to provide much needed financing to smaller businesses in the country via its regional branch network. The focus will also be on lending in the regions outside the capital and attracting new SME clients.

Early Warning System Project Analysis

Categorised FI (ESP 2024). Addiko Bank Serbia (ABS), an existing client, has demonstrated satisfactory environmental and social (E&S) performance under its current exposures. The proceeds of the Bank's loan will be used exclusively for the purpose of making sub-loans to micro, small and medium sized enterprises in Serbia in accordance with the MSME Policy Statement under the FIF. The subprojects are expected to carry low-to-medium E&S risk, primarily associated with the client's capacity to implement its Environmental and Social Management System (ESMS), potential impacts arising from the financed sub loans, and related supply chain risks.
