Project Description

As stated by the EBRD, the proposed operation is up to US\$ 50 million synthetic local currency senior unsecured loan to Mortgage Refinancing Company of Uzbekistan (UzMRC), structured in two tranches (US\$ 30 million committed and US\$ 20 million uncommitted). The facility will provide UzMRC with medium-term local currency funding, enabling it to continue refinancing eligible residential mortgage loans originated by partner financial institutions (PFIs). As Uzbekistan's only specialised mortgage refinancing institution, UzMRC acts as a secondary market aggregator, supporting the expansion of commercially priced mortgage lending and standardised underwriting practices across the sector. The transaction represents EBRD's second engagement with UzMRC, building on the successful deployment of the initial facility in 2025.

The mortgage line will support UzMRC's ongoing transition from reliance on government funding toward more sustainable, market-based sources of financing, while continuing to expand access to housing finance. The project will also further promote the implementation and adherence to sound mortgage lending standards through continued alignment with the EBRD's Mortgage Lending Standards.
