Project Description

According to EBRD website, the objective of the Programme is twofold:

- The core objective is to ensure that documentation submitted to the Bank for review and clearance is of adequate quality and standards required for EBRD acceptance. This will the designated Expert to provide timely provision of tailor made feedback to clients and consultants, building each time client and Client-selected consultant capacity to comply with the EBRD PPRs. By providing this support, via dedicated and preferably locally based expertise, the speed of knowledge transfer and quality of deliverables will be improved, materially affecting the pace of implementation.
- Secondly, via direct feedback from the Experts to the EBRD through a predefined feedback mechanism, the Bank intends to conduct a sample diagnostic on the key shortfalls relating to the quality of the documentation. Using data collected, the Bank will be able to assess why such shortfalls arise and therefore be able to determine if there are possible/feasible remedial actions that might be considered going forward.

ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at pcm@ebrd.com or you can submit a complaint online using an online form, http://www.ebrd.com/eform/pcm/complaint_form?language=en. You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>.
